

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

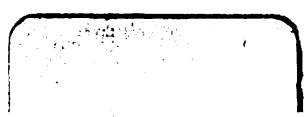

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. ILLUSTRATED GUIDE

TO THE

HOUSE OF COMMONS

OF

CANADA.

CONTAINING

The photographed portraits of His Excellency the Governor General, the Members of the Cabinet of the Dominion of Canada and the Members and Officers of the House of Commons of Canada, with a Diagram of the floor of the House indicating the position of the seats ; also an extract of the rules, regulations and routines of the House and many valuable informations for strangers visiting Ottawa and for the public in general.

PUBLISHED BY F. R. E. CAMPEAU.

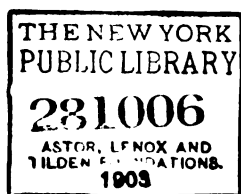

OTTAWA:

Printed by J. Bureau, Sparks Street.

1875.

Entered
May 1918.

Entered according to Act of Parliament of Canada, in the year 1875, by
F. R. E. CAMPEAU, in the Office of the Minister of Agriculture.

P R E F A C E .

IN presenting this book to the public, the Editor is satisfied he has succeeded in attaining the object which he had proposed to himself, viz :

- 1^o To procure to the Members of the House of Commons the means of knowing each other, by gathering their portraits together ;
- 2^o To supply persons frequenting the House of Commons with necessary information to make them acquainted with the proceedings of the said House ;
- 3^o To give to the public in general the greatest amount possible of interesting and useful informations.

In the first place it was not his intention to have any advertisements put in his book, and to give it thereby the appearance of an Almanac, but certain unforeseen circumstances such as the publication in both the English and French languages and the difference in price between photographs and lithographs which would have been inferior in appearance, have forced him to do so, in order to cover his expenses.

As it is the Editor's intention to make this book a periodical publication either for each Parliament or every Session according to the encouragement he receives, he proposes to give in future a short biography accompanied by a fac-simile of each Member's signature. As to the portraits it is also his intention to make them larger and all of the same appearance, which it has been impossible to attain this time, on account of the different styles of photographs which he received and which had to be either enlarged or reduced to match as near as possible.

The delay in the publication of this work, has been occasioned by circumstances which have forced the Editor to wait until all the Members had taken their proper seat and sent him their photograph. He regrets to be obliged to leave some blank spaces apart from the vacant seats, but he has spared no trouble nor expense to obtain the means to fill them.

In conclusion the Editor thinks it is his duty to thank all persons who have had the courtesy to give him the information he required to succeed in his enterprise, and he also presents his thanks particularly to the Members of the House of Commons who so kindly responded to his call by sending him their portraits and to all persons in general who have subscribed to his "Illustrated Guide to the House of Commons" and he begs leave to ask their patronage for the future.

EXTRACT OF RULES, ORDERS
— 30 AND 30 —
FORMS OF PROCEEDING
— 30 OF THE 30 —
HOUSE OF COMMONS OF CANADA.

ABSENCE OF SPEAKER & MEMBERS.—Every Member is bound to attend the service of The House, unless leave of absence has been given him by the House.

If the Speaker leave the chair for 48 consecutive hours, the House is then at liberty to elect one of its Members to take his place during his absence.

ADJOURNMENT.—The adjournment is a postponement of the proceedings of a Session to a specified date. If at the time of the meeting there be not a Quorum, the Speaker may take the chair and adjourn. When the House rises on Friday it shall stand adjourned untill the following Monday.

BILLS (*Private*).—No petition for any Private Bill is received by The House after the first three weeks of each Session ; nor may any Private Bill be presented to The House after the first four weeks of each Session : All applications for Private Bills shall require a notice, clearly and distinctly specifying the nature and object of the application, to be inserted in English and French for two months, in the Official Gazette and in both an English and French paper published in the District affected or the next adjoining District. Each petition for Private Bills must be accompanied by a sum of Two hundred Dollars to cover expenses.

BUSINESS OF THE HOUSE.—The ordinary Daily Routine of Business in the House shall be as follows :—

Questions put by Members.
Other Notices of Motions.

(From half past seven o'clock, p. m.)

Private Bills, for the first hour.

Orders of the Day for the Third Reading of Bills shall take precedence of all other Orders for the same day, except Orders to which the House has previously given priority. A Motion for Reading the Orders of the Day, shall have preference to any Motion before the House.

CABINET.—The Cabinet is composed of thirteen responsible Ministers conducting the affairs of the Dominion of Canada. Each Province has in the Cabinet, a number of representatives in proportion to its population. The head of the Cabinet also called the Premier, has the choice of his Colleagues who together with him assume the titles of: "Minister of Justice and Attorney General;" "Minister of Militia and Defence;" "Minister of Customs;" "Minister of Finance;" "Minister of Public Works;" "Minister of Inland Revenue," "Minister of the Interior;" "Minister of

Marine and Fisheries ;" " Minister of Agriculture ;" " Post Master General ;" " Secretary of State ;" " Receiver General ;" and " President of Privy Council. "

CLERK OF THE HOUSE OF COMMONS.—The Clerk of the House of Commons who is appointed by the Crown, holds an office of importance and of great trust. He is responsible for the safe keeping of all the papers and Records of The House, and has the direction and control over all the Officers and Clerks in the Offices. He places on The Speaker's table every morning, previous to the Meeting of The House, the Order of the Proceedings for the day. He keeps a Record of the House's votes, proceedings and resolutions, and it is his duty to see that they are properly printed and distributed to Members. He has to read aloud all such documents as the House may order to be read: He has two Assistants whose duty it is to help the Clerk of the House during the Session, and to complete and finish with him the work remaining at the close of the Session.

COMMONS.—See House of Commons.

DEBATES.—No Member may speak twice to a Question, except in explanation of a material part of his speech in which he may have been misconceived. When a Member is speaking no Member shall interrupt him, except to Order. When Members have been called in, preparatory to a Division, no further debate is to be permitted. All persons admitted to hear the Debates have to keep silent, and gentlemen with their hats off; and any one disturbing the House can be placed in the custody of the Sergeant at Arms.

JOURNAL.—A Journal has to be kept by the Clerk of the House a copy of which is delivered daily to His Excellency the Governor General. The Clerk of the House enters in this journal: the time of Adjournment and the names of the Members present when the House adjourns for want of a Quorum; the reasons stated by the Speaker when he is called upon to give a Casting Voice, and also the Yeas and Nays upon a Division; provided a demand to that effect is made by 5 Members.

HOUSE OF COMMONS.—The House of Commons is actually composed of 206 Members, of which :—

88	for the Province of	Ontario.
65	"	" Quebec.
21	"	" Nova Scotia.
16	"	" New Brunswick.
6	"	" British Columbia.
6	"	" Prince Edward Island.
4	"	" Manitoba.

However the Number of Members of the House of Commons may be from time to time increased by the Parliament of Canada, provided the proportionate Representation of the Provinces prescribed by the Act is not thereby disturbed.

On its first assembling after a General Election, the House of Commons proceeds with all practicable speed to elect one of its

Members to be Speaker. Its duration is five years and no longer (subject to be sooner dissolved by the Governor General). The House has to meet at least once a year for the despatch of business. The time chosen for that purpose is generally in February and the Session lasts about two months. When all business is transacted and the Estimates voted, the House then is closed. Besides the prorogation there are also the adjournment and the dissolution. The former, means the postponement of the proceedings from one time to another specified for re-assemblage and the latter, puts an end to the representative character of the individuals composing the House; and this is when the Governor General judges it necessary to make a new appeal to the electors for the interest of the public in general.

The hour of meeting of the House of Commons is 3 o'clock p. m. and 7½ o'clock p. m. and the debates are open to the public. However a ticket of admission signed by the Sergeant at Arms is necessary to be admitted to hear them.

LIBRARY.—No person shall be entitled to resort to the library during a Session of Parliament, except the Governor General, the Members of the Privy Council and of the two Houses of Parliament, the Officers of both Houses, and such other persons as may receive a written order of admission from the Speaker of either House. Members may personally introduce Strangers to the Library during the day time but not after the hour of seven o'clock, p. m.

MACE.—The Mace is the sign of the Legislative Authority which rests in the House. The Sergeant at Arms, who is responsible for its safe-keeping, places it on the table at the opening of each Session. It remains on the table all the time of the proceedings of the House as a body; but it is taken off when the House is in Committee and at the close of each meeting.

MEETING.—See House of Commons.

MEMBERS.—The Members of the House of Commons are the respective representatives of the constituencies of the various Provinces of the Dominion. They are elected by the people by Ballot, for a period of five years.

MINISTRY.—See Cabinet.

PRIVATE BILLS.—See Bills (*private*.)

PRIVILEGE.—Whenever any matter of Privilege arises, it is immediately taken into consideration.

QUESTIONS PUT BY MEMBERS.—Questions may be put to Ministers of the Crown relating to public affairs; and to other members, relating to any Bill, Motion or other public matter connected with the Business of the House, in which such Members may be concerned; but two day's Notice must be given for leave for putting a Question.

QUORUM.—The Quorum of the House of Commons is of 20 members. When there is not a Quorum the Speaker can take the chair and then adjourn, the names of the Members then present are inserted in the Journal.

SERGEANT-AT-ARMS.—The Sergeant-at-Arms appointed by the Crown, is responsible for the safe-keeping of the Mace, and for the conduct of the Messengers and inferior Servants of the House. It is he who regulates the admission of Strangers to the House through Members, by Tickets for the Galleries.

SESSION.—The Session is the term during which the House is assembled until its prorogation. A Session may be postponed from one date to another without being closed, but when all necessary business is completed, it is generally prorogued, or closed until the next year.

SPEAKER.—The Speaker, chosen by the Members of the House at the opening Session of the first Parliament, is the presiding Officer of the House of Commons. He preserves order and decorum and decides Questions of Order. He takes no part in any Debate before the House, except when in Committee; but in case of an inequality of Votes, he gives a Casting Voice.

Library of Parliament.

The Library of Parliament which contains 77,000 volumes is temporarily situated in the rooms to be occupied by the Picture Gallery, and will be transferred to the rotunda which is now nearly complete in rear of the central block.

The Patent Office.

In the upper story of the central wing of the Western Block, contains over 10,000 miniature models of all inventions patented in Canada since 1824.

The Lover's Walk,

A charming promenade hidden on the side of the rock on which the Parliament buildings stand. This road which is over a quarter of a mile in length is wide and kept in good order, seats are placed here and there for the convenience of persons who want to enjoy

a solitary rest. From that place the tourist has a splendid view of the Ottawa river, in all its *grandeur*.

The Canal Locks,

Eight in number, are situated at the extremity of the Rideau Canal. They are 134 feet long and 33 feet wide each. They were constructed between 1826 and 1832, by Colonel By, who gave his name to this city formerly called Bytown. Their cost is £803.774.5.5 Sterling. Their object is to connect the Ottawa river to the Rideau Canal which continues as far as Kingston on Lake Ontario.

The Water Works,

Were constructed in 1874. Their hydraulic powers are situated at about a mile from the Parliament Buildings, at the extreme end of Wellington street.

The Slides.

Were constructed in 1832 by Mr. Geo. Buschanan to avoid the Chaudière Fall and thereby facilitate the driving of the lumber going down towards the markets of Montreal and Quebec. They are 26 feet wide and 874 feet in length, and their slope is rendered nearly insensible by stops, placed at distances, from 66 feet to 380 feet between each. In summer the amateurs of sensation, find great pleasure in going down these slides on the rafts. This little trip although very agreeable, might prove dangerous if not made with prudence.

The Chaudière Fall.

So called, by the first travellers in this country, on account of its basin resembling a huge-kettle. (*chaudière* being the french of that word.) It is situated at the western extremity of the City at a distance of about two miles from the Parliament Buildings, at the terminus of the street railway line. Its height is only 60 feet but its immense volume of water nearly equals that of the Niagara Falls, and whirls as in a vast funnel, the width of the Ottawa river, immediately over, being about 500 yards whilst below it measures only about 50 yards.

The Union Suspension Bridge,

Was erected a little below the Chaudière Fall in 1843-44. An interesting peculiarity is. that a person standing halfway on this bridge has a foot in each of the Provinces of Ontario and Quebec, the Ottawa river being the division line between the two.

E. B. Eddy's Mammoth Factories,

Situated in Hull at a short distance from the Union Suspension Bridge, are without doubt the most extensive of the kind in Canada. They consist of a saw-mill, and manufactures of Sashes, Doors, Blinds, Mouldings, Pails, Washboards and Matches; the number of person employed in this last branch only, is nearly 400, whilst the total number of hands employed is 2000, men, women and children.

The Fire Alarm Telegraph.

Of which the principal Office is situated at the City Hall below Elgin St. was erected in 1874 and serves as in other cities to transmit from one part of the city to another by means of electricity, the alarm in cases of fires, giving the locality of the conflagration.

The Rideau Falls,

Situated at the northern terminus of the street railway line and formed by the Rideau River, which precipitates itself into the Ottawa from a height of about 50 feet, dividing its waters as it goes down forming two sheets of water having the appearance of a pair of large curtains. (These falls have to be seen in the spring, for in any other season the waters are not high enough to give a correct idea of them). Many go down to take shower baths for 10 cents.

Hull Iron Mine.

This mine, owned by Mr. A. H. Baldwin, may be reached by a road of about two miles from the Gatineau river. Both the facilities for working the mine and getting out the products are good, as the mine is not worked by digging as is generally the case but is approached sideways, thereby saving considerable expense. Wagons or sledges convey the products to the wharf on the Gatineau, from where it is shipped to Cleveland by barges.

Borthwick's Springs,

These mineral springs, three in number, are situated 6 miles east of the city on the Russell Macadamized Road. There are good accommodations for invalid boarders, wishing to pass the summer season there.

Caledonia Springs.

These renowned mineral springs are at a short distance of the Capital, and may be easily reached. The distance from Ottawa to l'Original at which place the Steamers "Peerless" and "Queen Victoria" call every day, is 50 miles; once there, the stages take the visitors to the springs (7 miles off,) where accommodation for 300 boarders can be had, in the spacious hotel lately purchased by Jas. A. Gouin Esq. proprietor of the Russell House in Ottawa. On the first of July, 1875, there will be a railway running from the wharf to the springs.

The Grotto of Wakefield.

An immense natural cavern in a mountain at a distance of twenty miles from Ottawa, in the Township of Wakefield. Mr. Pélissier. on whose property it is situated, declares himself not to have been able to ascertain the depth. The interior is divided into compartments of irregular form and shape, the ground is not always of the same level. As a marvel this grotto is well worth a visit, and the road is in pretty good order as far as that place. The best road to follow, is the one on the right side of Gatineau river, going up. Trout fishing 8 miles further.

TABLE OF CLOSE SEASONS FOR FISH AND GAME IN THE DOMINION OF CANADA.

FISH.	ONTARIO.	QUEBEC.	REMARKS.
Whitefish	19th Nov. to 1st Dec.	19th Nov. to 1st Dec.	Fishery Laws are administered by Dominion Government Officers appointed to enforce them in each district where fisheries exist. These Officers are vested with magisterial powers, and act summarily. The special prohibitions are supplemented by various protective clauses designed to strengthen protective measures. Governor in Council can adopt Regulations to increase efficiency, or relax stringency of statutory enactments, in accord with local circumstances or special necessities.
do Seining	30th May to 1st August	31st July to 1st Dec.	
Salmon, Net Fishing	1st August to 1st May	1st August to 1st May	
do Fly Surface Fishing	1st Sept. to 1st May	1st Sept. to 1st May	
Speckled Trout	1st Oct. to 1st May	1st Oct. to 1st January	
Bass	15th April to 1st May	30th April to 24th May	Game Laws under jurisdiction of Provincial Governments. No official organization to enforce them. Their provisions are somewhat incongruous, and for want of practical sympathy and machinery such as keeps in active and efficient operation the fishery laws, they are disregarded. The provinces being contiguous, their geographical situation admits of and requires some degree of uniformity as to close seasons. Many friends of game preservation desire a uniform date, where practicable, in border districts—say 1st September, for commencement of autumn shooting. Also, further prohibition of spring shooting, and summer shooting, of woodcock, with rational modifications to suit sectional differences.

by 110

\$68000

and divide 68,000 dolls. by \$960. vizt :

68000 $\frac{100}{100}$ $\overline{) 960}$
6720 70.83

8000

7680

3200

2880

320

The value of one hundred dollars United States currency would therefore be \$70.83 or 29.17 less than Canada currency or gold, because on examination it will be found that..... 29.17
added to..... 70.83

will complete.....\$100.00

showing thereby that my agent in New York, must have sold at 29 0/10 discount.

?

This operation may be carried out in a different way, vizt : to immediately give the discount on green backs : therefore say . \$960
 less \$680 680

\$280

and establish the following proportion.

As \$960 : 100 : : 280 is to x =
 100

$$\begin{array}{r}
 28000 \\
 1920 \overline{) 28000} \\
 \underline{1920} \\
 8800 \\
 8640 \\
 \underline{} \\
 1600 \\
 960 \\
 \underline{} \\
 6400 \\
 6720
 \end{array}$$

It is to be observed that very often it is necessary, when reaching the last figure of the quotient, to *force* or *neglect* the fraction which that figure may leave to adjust.

No. 2.

What will be the rate of discount on \$100 in green backs if gold is at 140 0/0 premium ? Say :

As 140 : 100 : : 100 to x =

and multiply 100 by 100 and divide by 140.

Example

$$\begin{array}{r}
 100 \\
 100 \\
 \underline{} \\
 10000 \\
 980 \overline{) 10000} \\
 \underline{980} \\
 200 \\
 140 \\
 \underline{} \\
 600 \\
 560 \\
 \underline{} \\
 400 \\
 280 \\
 \underline{} \\
 120
 \end{array}$$

Discount on \$100 is therefore 28 $\frac{1}{2}$ per cent and the value of \$100 American currency is \$71.42.

No. 3.

If discount on green backs is at 30 0/0 what is the value of one hundred dollars gold ?

Say— As 100 less the discount (30 0/0) is to 100 so is 100 to x = therefore :

$$70 : 100 :: 100 : x$$

$$\begin{array}{r} 10000 \quad 70 \\ 70 \quad 142.86 \\ \hline 300 \\ 280 \\ \hline 200 \\ 140 \\ \hline 600 \\ 560 \\ \hline 400 \\ 420 \end{array}$$

\$142.86 would be the cost of \$100 gold payable in green backs.

Proof.

I have \$142.86 in American funds which I want to convert into gold, American funds being at 30 0/0 discount, say :

$$\begin{array}{r} \$142.86 \\ \text{less } 30 \text{ 0/0} \dots\dots 30 \\ \hline \$43,85.8 \text{ mills.} \end{array}$$

$$\begin{array}{r} \text{The discount on } \dots\dots\dots \$142.86 \\ \text{would be } \dots\dots\dots 42.86 \\ \hline \end{array}$$

$$\text{leaving as proof } \dots\dots\dots 100.00$$

The above rule may be used in the case of a person wishing to obtain from a Banking House in Canada the avails of \$100 gold in American currency. The mode of proceeding would be exactly the same as in example No. 3, taking care of the rate of discount on the day of purchase. In example No. 3 the rate of discount is 30 0/0, therefore the first number of the proportion is 70 ; if it had been 25 0/0 the first number of the proportion would have been 75.

No. 4.

\$1100 in gold have produced \$1523, 50 in American funds, what was the rate of gold at the date of sale ?

Strike the difference between..... 1523.50
and..... 1100.

difference 423.50

and say :

As 1100 : 100 : : 423.50 to x and proceed in the usual manner by multiplying 423.50 by 100 and dividing by 1100. This operation however may be simplified by merely dividing 423.50 by 11. The result by both modes of proceeding will prove that $138\frac{1}{2}$ was the rate of gold at the date of sale of the \$1100.

TABLE OF FRANCS AND CENTIMES REDUCED INTO STERLING, ALLOWING 25 FRANCS TO THE £ STERLING.

EXPLANATIONS.

Exchange on Paris is calculated at Sterling rates, adding however $\frac{1}{2}\%$ for difference between Paris and London. Therefore if a draft on London at 60 days sight would be sold at $10\frac{1}{2}\%$ the same on Paris would cost 11 per $\%$ premium.

EXAMPLE.—Required the sterling amount of Frcs. 216.05 according to the present table.

Frcs. 200 00	=	£8	0	0
16 00	=	0	12	9 ⁶⁰ / ₁₀₀ ths
0 05	=	0	0	0 ⁴⁸ / ₁₀₀ ths
<hr/>				
Frcs. 216 05		£8	12	10 ⁵ / ₁₀₀

By means of the ordinary Sterling Exchange Tables the cost of Frcs. 216.05 at 60 days sight may be easily ascertained or it may be calculated as follows, viz :

Reduce £8 12 10 into dollars.....	\$34.57
Add $\frac{1}{2}\%$ of the amount.....	3.84
<hr/>	

Add 11 $\%$ on \$38.41 (if exchange on London is at $10\frac{1}{2}\%$ premium).....	4.22
<hr/>	

Cost of Frcs. 216 05 a 11 $\%$ premium.....	42.63

RULES RESPECTING THE LIBRARY OF PARLIAMENT.

A proper Catalogue of the Books belonging to the Library shall be kept by the Librarian in whom the custody and responsibility thereof shall be vested; and who shall be required to report to the House through Mr. Speaker, at the opening of each Session, the actual state of the Library.

No person shall be entitled to resort to the Library during a session of Parliament except the Governor General, the members of the Privy Council, and of the Senate and House of Commons, and the Officers of both Houses, and such other persons as may receive a written order of admission from the Speaker of either House. Members may personally introduce Strangers to the Library during the daytime, but not after the hour of seven o'clock, P. M.

During a Session of Parliament, no Books belonging to the Library shall be taken out of the Building, except by the authority of the Speaker or upon receipts given by a Member of either House.

During the recess of Parliament, the Library and Reading Room shall be open every day in each week, Sundays and Holidays excepted, from the hour of ten in the morning untill three in the afternoon; and access to the Library shall be permitted to persons introduced by a Member of the Legislature, or admitted at the discretion of the Clerk or Librarian; subject to such regulations as may be deemed necessary for the security and preservation of the collection; but no one shall be allowed to take any Book out of the Library except Members of the Legislature, and such others as may be authorized by the Speaker of either House.

The Clerk of this House is authorized to subscribe for the newspapers published in the Dominion, and for such other papers, British and Foreign, as may from time to time be directed by the Speaker; and to import annually the continuation of periodical works in the Library.

During the recess of Parliament, no Member of either House not residing at the seat of Government, shall be at liberty to borrow or have in his possession at any one time more than three works from the Library, or to retain the same for a longer period than one month.

No other persons who may be privileged by card from the Speaker of either House to borrow Books from the Library shall be allowed to have in their possession more than two Books at any one time, or to retain the same longer than three weeks, and all such persons shall return the books so taken when required by the Librarian.

No Books of reference, or Books of special cost and value, may be removed from the seat of Government under any circumstances.

At the first meeting of the Joint Library Committee at every Session of Parliament, the Librarian shall report a list of the Books absent at the commencement of the Session, specifying the names of any persons who have retained the same in contravention of either of the foregoing Rules.

TO ADVERTISERS IN THE GAZETTE.

PARTIES sending advertisements to be inserted in "The Canada Gazette," will hereafter please observe the following rules.

1st. Address "The Canada Gazette, Ottawa, Canada;

2nd. Indicate the number of insertions required;

3rd. Invariably remit the fees for such advertisements, together with the price of one Gazette, as below. Otherwise they will not be inserted. The rates of eight cents for the first insertion, and two cents for each subsequent insertion per line of nine words, each figure counting as one word.

Subscribers will also notice that the subscription, \$4.00 per annum is invariably payable in advance, and that the "Gazette" will be stopped from them at the end of the period paid for. Single numbers will be charged 10 cts. each, and when more than one are required by advertisers, 10 cents each copy must be remitted for likewise.

VICTORIA, by the Grace of God, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, &c., &c., &c.

To all to whom these presents shall come, or whom the same may in anywise concern, GREETING :—

A PROCLAMATION.

T. FOURNIER, } WHEREAS in and by an Act of
Attorney General, Canada. } the Parliament of Canada
passed in the 36th year of Our Reign chaptered 48, intituled: "An
Act to provide for the inspection of Gas and Gas Meters," it is
amongst other things in effect enacted, that after the date fixed by
the Proclamation to be issued under the said Act, the only standard
or unit of measure for the sale of Gas by meter, shall be the cubic
foot containing sixty-two pounds and three hundred and twenty-one
thousandths of a pound *avoir-du-poids* weight, of distilled water
weighed in air at the temperature of sixty-two degrees of Fahren-
heit's thermometer, the barometer being at thirty inches, except
as relates to contracts made before the passing of the said Act now
in recital, and in which a different unit of measure is adopted;
which contracts if renewed, shall adopt the unit of measure above
prescribed: AND it is further enacted, that within as short a period
as may be after the passing of the said Act, models of gas-holders
measuring the said cubic foot and such multiples and decimal parts
of the said cubic foot as the Minister of Inland Revenue shall deem
expedient, and from time to time models of such further multiples
and decimal parts of the said cubic foot as the Minister of Inland
Revenue shall from time to time think necessary, shall be carefully
made with proper balances, indices and apparatus for testing the
measurement and registration of meters; and such models shall be
verified under the direction of the Minister of Inland Revenue, and
when so made and verified shall be deposited in the Department of
Inland Revenue: and copies of the models so deposited, verified as
aforesaid, shall be used under such regulations as may be approved
by the Governor in Council, for testing and verifying all meters
used within the Dominion: And that models of the apparatus des-
cribed in Schedule A of the said Act for testing the illuminating
power and purity of Gas shall also be procured, and, after having

been approved by the Minister of Inland Revenue, shall be deposited in the Department of Inland Revenue, and copies of the same models shall be used in the manner described in part two of the said Schedule A and in such further instructions not inconsistent therewith, as may be, from time to time, directed by Departmental regulations for testing the illuminating power and purity of Gas: And it is further enacted that so soon as the models and apparatus therein mentioned have been obtained and approved, the Governor in Council may issue a Proclamation fixing a day, not less than six months from the date of such Proclamation, upon which the provisions of the Act now in part recited respecting inspection shall go into operation:

AND WHEREAS in accordance with the above in part recited Act, models of gas holders measuring the said cubic foot, and such multiples and decimal parts of the said cubic foot, as the Minister of Inland Revenue has deemed expedient, have been carefully made with proper balances, indices and apparatus for testing the measurement and registration of meters, and such models have been verified under the direction of the Minister of Inland Revenue and have been deposited in the Department of Inland Revenue:

AND WHEREAS models of the apparatus described in Schedule A of the above in part recited Act, for testing the illuminating power and purity of gas have also been procured and having been approved by the Minister of Inland Revenue, have been deposited in the Department of Inland Revenue:

AND WHEREAS the models and apparatus herein mentioned have been obtained and approved as required by the hereinbefore in part recited Act:—

Now KNOW YE, that we do by this our Royal Proclamation and by and with the authority of the above in part recited Act, and by and with the advice of our Privy Council for Canada, proclaim, declare and fix the first day of July, which will be in the year one thousand eight hundred and seventy-five, as the day upon which the provisions of the above in part recited Act, intituled: "An Act to provide for the Inspection of Gas and Gas Meters," respecting inspection shall come into operation except in the Province of Prince Edward Island.

Of all which our loving subjects and all others whom these presents may come, or whom the same may concern, are hereby required to take notice and to govern themselves accordingly.

IN TESTIMONY WHEREOF, We have, &c.

GOVERNMENT HOUSE, OTTAWA.

Friday, 15th day of January, 1875.

PRESENT.

HIS EXCELLENCY THE GOVERNOR GENERAL
IN COUNCIL.

WHEREAS it has been represented that large importations of Coal Oils are continually taking place at various ports in the Dominion, samples of many of which will not stand the fire test required by the Inland Revenue Act, 1868, and amendments thereto; also that large importations of certain products of Petroleum, such as Gasoline, Benzine and Benzole are being made, such articles being very explosive and dangerous at a very low temperature.

His Excellency, on the recommendation of the Honorable the Minister of Customs, and under the provisions of the 17th section of the Act passed in the session of the Parliament of Canada, held in the 31st year of Her Majesty's Reign, chaptered 50 and intitled: "An Act to increase the "Excise duty on spirits, to impose an excise duty on "refined Petroleum, and to provide for the Inspection thereof," has been pleased to order, and it is hereby ordered that with a view to the better regulation of the foreign Petroleum trade, and the security of the lives and property of Her Majesty's subjects, the following regulations be and they are hereby adopted and established, that is to say.

1. From and after the date hereof, the officers appointed to gauge and test spirituous liquors, wines, &c., at the respective ports of Toronto and Hamilton, in Ontario; the Port of Quebec, in Quebec; the Port of St. John, in New Brunswick; and the Port of Halifax, in Nova Scotia, shall be and they are hereby appointed Inspectors of imported Refined Petroleum at those Ports respectively; and that the respective Collectors of Customs and Sub-collectors of Customs at all other ports and out-ports in Canada, shall be and they are hereby appointed Inspectors of imported Refined Petroleum at their respective ports and out-ports, with power to employ in the actual process of testing such oils any officer or officers under their respective surveys whom they shall consider competent for that purpose.

2 That the instrument to be used for testing all imported refined petroleum shall be the "Coal Oil Pyrometer," made by Charles

Potter, Toronto, Ontario, and all such petroleum as will not stand the fire test of 105 degrees, as required by said Pyrometer, as required by section 2 of chapter 15 of 24 Victoria, when used according to the instructions accompanying the same, shall be dealt with as may be ordered by the Minister of Customs in each case.

3. That every package of imported Refined Petroleum, inspected as before provided, shall be legibly marked or stamped in such manner as the Minister of Customs may direct.

4. That no imported refined Petroleum, which will not stand the said Test, whether designated as "Coal Oil," "Naphtha," "Benzine," "Benzole," "Paraffine" or other oil or fluid, distilled, manufactured or produced by any process or treatment whatever shall be admitted to entry for consumption or Warehouse in Canada, unless the Importer shall have produced a license from a Collector or other proper Officer of Inland Revenue, authorizing him to import and keep the same on hand.

W. A. HIMSWORTH,
Clerk Privy Council.

THE attention of parties concerned is hereby directed to the provisions of the "Inland Revenue Act of 1875" (37 Vic., chap. 8) which came into force upon the 1st day of January inst.

This Act is entitled "An Act to impose License duties on Compounders of Spirits; to amend the *"Act respecting Inland Revenue"* and to prevent the Adulteration of Food, Drink and Drugs."

Under its provisions all Compounders of Spirits must bring themselves under the supervision of the Department of Inland Revenue, by taking out a license for the carrying on of their business as such. Application for such licenses should be made to the Collector of the Inland Revenue Division within which such business is, or is to be carried on.

That portion of the Act relating to the Adulteration of Food, Drink or Drugs will become operative only within Inland Revenue Divisions for which Analysts shall, from time to time, be appointed, of which due notice will be given so soon as such appointment shall have been made.

THE DOMINION LANDS OF CANADA.

These lands are situate in Manitoba and the North West Territories.

The system of survey is rectangular, the township being six miles square, divided into thirty-six sections of one mile square each, which latter are subdivided on the ground into quarter sections of 160 acres each.

Sections 11 and 29, amounting to 1280 acres, in each township, are dedicated to the purposes of public schools.

Sections 8 and 26 in each township represent the one-twentieth reserved throughout the "fertile belt" to the Hudson Bay Company under the Deed of Surrender.

Dominion lands open for sale or settlement may be purchased for cash at one dollar per acre, may be entered by Military Bounty Warrant, or may be entered as homesteads for actual settlement.

Homestead settlers pay a fee of \$10.00 at the time of entry for the land, and are required to reside upon and cultivate the quarter-section entered as a homestead, for three years, upon which they get a patent free.

The homestead settler has also the privilege of entering for an adjoining quarter-section of land as a homestead reserve, of which he is admitted into immediate possession and cultivation, and for which, on the completion of his homestead conditions, he may acquire the full title on the payment of One dollar per acre.

Coal lands are not subject to the operation of the Homestead provisions of the Dominion Lands Act.

Persons desiring to carry on Coal mining in unsurveyed territory may apply to purchase, sending forward the description by a Dominion Land Surveyor, setting forth generally the situation and dimensions of the land and accompanying the same by the price thereof, estimating the number of acres, which shall not exceed 640, at the rate of one dollar per acre.

The Minister of the Interior with the view of preventing undue monopoly in Coal lands, may in his discretion, on a township being surveyed, exempt from sale and settlement, the lands in such township containing Coal, excepting those on which mining may have been carried on under the above regulation, and may subsequently sell or otherwise deal with the same in such manner as may be deemed expedient by the Governor in Council.

The Dominion Lands Act is not intended to apply to territory over which the Indian title may not at the time have been extinguished.

The above is merely a synopsis of the law embracing the policy connected with the Administration of the Dominion Lands. Persons wishing more full and complete information are referred to the Dominion Lands Act.

All communications relating generally to the Dominion Lands to be addressed to the Honorable the Minister of the Interior, at Ottawa.

All specific applications to enter Surveyed Lands should be addressed to the Agent of Dominion Lands, Winnipeg, Manitoba.

By order,

J. S. DENNIS,

Surveyor General.

THE CALEDONIA SPRINGS.

—:o:—

Situated in the County of Prescott, Ontario, nine miles from the town of L'Original and about half way between Montreal and Ottawa City (the Capital of the Dominion of Canada.)

The regular route to the Springs from Montreal is by the 7½ A. M. train from Bonaventure Station connecting with the Steamer *Prince of Wales* for Carillon, thence by railway to Greenville and Steamer *Queen Victoria* to L'original. Fare from Montreal to L'Original \$2.50.

Travellers from Ottawa City leave per *Peerless* every morning (Sundays excepted) at 7.30 reaching L'Original at 11.30 or by *Queen Victoria* every evening at 5.00 p. m. reaching L'Original at 9.00 p. m. Fare \$1.25. Stage, which on the 1st July 1875 will be replaced by a railway, are in readiness on the arrival of the boats to convey passengers to the Springs. To tourists especially, no better arrangement could be devised for enabling them to visit these far-famed waters without delaying them on their journey up or down the Ottawa river more than a few hours.

These springs are four in number. Three of them, known as the "Gas Spring," the "Saline Spring," and the "White Sulphur Spring," are situated within a distance of four or five rods, and the mouths, of the latter two are not more than four feet apart. The fourth, known as the "Intermitting Spring" is situated about two miles distance and is much more saline than the others.

MEDICAL TESTIMONY.

To such as have visited and been benefitted by the use of the mineral waters of the Caledonia Springs, no further evidence of their efficacy is needed, but there are many not included among these who may rightly demand some more definite and reliable information than is conveyed in general assertions which may be made in the interests of the Company possessing the Springs. To satisfy this demand as well as to strengthen the good opinions of those who have had personal experience of the value of the waters, the names of the following persons who gave their testimonials are submitted, several of these persons are still living and stand at the head of their profession in Montreal. Yet their opinions so clearly and decidedly expressed thirty-three years ago remain unaltered.

Wm. Robertson, M. D. Montreal, T. Quesnel, M. D. L'Acadie, J. Douglas, Surgeon, Quebec, Jas. Crawford, M. D. Montreal, W. Fraser, M. D. Montreal, Geo. W. Campbell, A. M. & M. D. Montreal, Joseph Morrin, M. D. Quebec, Jas. Sterling, A. M. & M. D. Hawkesbury, Hon. Mr. Justice Geo. Pyke Montreal. W. C. H. Burnaby Baronet and many others.

All these gentlemen have recognissd in their certificates that the use of the mineral waters of these springs either for drinking or bathing, is a safe cure for the following deseases: Derangements of the Digestive Organs, Dyspepsia, Affections of the Liver and Urinary Organs, Diseases of the Skin, Rheumatism, Affection of the Kidneys, Scropulous Complaints, Affection of the Bladder, Lepra, Delirium Tremens, Tic-Douleureux, Chlorosis, Barrenness, Gonorrhea, Syphilis, Improper Use of Mercury, Eye Sores of every kind. According to the opinion of some eminent medical men any desease of any kind can be cured by the use, either internal or external, of these mœdecinal waters according to the desease.

Ladies can safely use it in washing, as one of the best thing out for beautifying the complexion

As stated on folio 100 of this work there is at these Springs a spacious hotel where accommodation for 300 boarders can be had.

All informations will be kindly given by applying to the Proprietors.
